SUMMARY

Senior Product Manager with over 14 years of experience in Payments, E-commerce, Marketplaces, SaaS, and Manufacturing. I lead product strategy and roadmap end-to-end, from discovery to launch, delivering measurable business outcomes in complex environments. I partner with executives and cross-functional teams to translate strategy into OKRs, KPIs, and data-driven decisions, with a current focus on applying AI and LLMs for decision support, first-party data, measurement, and agentic workflows.

SKILLS

Proficient: Product Strategy & Vision, Roadmap Definition & Prioritization, Product Discovery & Delivery, OKRs & KPIs, Data-Driven Decision Making, Stakeholder Management & Influence, Cross-Functional Leadership, Team Leadership & Mentoring

Intermediate: Experimentation & A/B Testing, Platform Products & B2B Marketplaces, Go-to-Market (GTM), Competitive & Market Intelligence, AI, LLMs & Agentic Workflows

Beginner: Artificial Intelligence applied to Products, Engineering and Business

PROFESSIONAL EXPERIENCE

Strategy Manager

Whirlpool Corporation, São Paulo, Brazil

04/2025 to Present

Core Responsibilities:

- Led a multidisciplinary team of 12 professionals across Product Analytics, Merchandising Analytics, Experimentation, and Operational Reporting, supporting the e-commerce of brands like Whirlpool, KitchenAid, Maytag, Amana, and Gladiator.
- Transformed analytics operations from reactive reporting to structured decision support, utilizing Tableau, Power BI, Looker Studio, and Teradata to increase visibility and accelerate opportunity identification for Product and Commercial teams.
- Owned the KPI framework and executive performance reporting, connecting strategic diagnostics to measurable business outcomes to drive prioritization of D2C investments for a business with US\$15.5 billion in annual sales.
- Championed AI adoption in strategic decision-making, focusing on decision support, first-party data, measurement use cases, and agentic workflows to enhance analytical capabilities.
- Partnered with engineering teams using AWS, Databricks, and SageMaker to identify conversion bottlenecks, product opportunities, and automate operational reporting.
- Structured team operations across four fronts to transform data into actionable insights for Product, eCommerce, and Merchandising, ensuring each analysis linked to a concrete decision or opportunity.

Key Technologies and Tools: Tableau, Power BI, Looker Studio, Teradata, AWS, Databricks, SageMaker

Competitive Intelligence & Strategy Specialist

Continental Tires, Lousado, Portugal

02/2023 to 03/2025

Core Responsibilities:

- Drove corporate strategy and annual planning for Digital Tire Solutions, utilizing market, competitor, and business-model analysis to inform portfolio, go-to-market, and positioning decisions across global markets.
- Conducted competitive intelligence analyses on players like Michelin, Bridgestone, and Goodyear, comparing technologies, business models, and integration possibilities to identify differentiation opportunities for Continental.
- Delivered market insights to senior leadership, influencing investment prioritization and supporting the evolution of the digital portfolio towards predictive maintenance and data-driven fleet management.
- Identified the market shift from periodic measurements to continuous and predictive monitoring, supporting the strategic direction of the ContiConnect platform with data from tread depth and cloud algorithms.
- Supported the transformation from reactive maintenance to predictive management, contributing to increased safety, uptime, operational efficiency, and tire lifespan, as demonstrated by a pilot predicting tread depth with less than 1mm precision.

Key Technologies and Tools: ContiConnect, sensors, telemetry, analytics, cloud algorithms

Platform Product Manager

Farfetch, Porto, Portugal

03/2022 to 02/2023

Core Responsibilities:

- Owned the transactional platform for Farfetch's B2B luxury marketplace, leading two development teams and the roadmap for critical operational capabilities including inventory management, checkout, shipping, and returns.
- Led the complete revamp of the platform, revising architecture, user journeys, and integrations to transform specific functionalities into reusable, modular services.
- Defined APIs and system contracts, balancing short-term needs with long-term scalability to enable different group companies to consume shared platform capabilities.
- Delivered a significantly more modular, integrated, and scalable transactional platform, reducing duplicated development and accelerating product launch velocity for various group projects.
- Directed quarterly planning and roadmap prioritization across capacity, investment, and business outcomes, aligning cross-functional stakeholders on trade-offs for critical platform processes.

Key Technologies and Tools: APIs

Senior Product Manager

PSafe Technology, São Paulo, Brazil

03/2021 to 03/2022

Core Responsibilities:

- Led product strategy and delivery for dfndr security, a consumer mobile app with over 6M active users, owning the roadmap, backlog, and success metrics.
- Partnered with AI/ML teams on the discovery and launch of new cybersecurity solutions, translating user research and data into prioritized product requirements.
- Redesigned the monetization experience for the dfndr security app, structuring the user journey to prioritize value delivery before presenting monetization opportunities.
- Increased app engagement and usage time by making the experience significantly less intrusive, leading to higher user satisfaction and a more favorable context for subsequent monetization.
- Defined the user journey and prioritized changes, aligning product, technology, and business teams while monitoring usage and satisfaction indicators to improve monetization efficiency.

Key Technologies and Tools: AI/ML

Platform Product Manager

Webmotors, São Paulo, Brazil

06/2019 to 03/2021

Core Responsibilities:

- Led the creation of a white-label automotive platform for international expansion, transforming Webmotors' consolidated product into a scalable solution for diverse markets.
- Developed a complete B2B platform, including purchase/sale journeys, inventory management, and commercial rules, with a modular and configurable business rules architecture.
- Launched the platform in five major Latin American markets in partnership with Santander, creating a B2B2C solution for dealerships to digitize vehicle sales.
- Delivered a new business line with international expansion potential, enabling the reuse of the platform's core in different countries and reducing specific development needs per market.
- Aligned commercial, engineering, and design stakeholders around data-driven prioritization and quarterly OKRs, driving user engagement through roadmap ownership and experimentation.

Key Technologies and Tools: A/B testing

Portfolio Manager

PayPal, São Paulo, Brazil

01/2018 to 06/2019

Core Responsibilities:

- Led the creation of a Sales Intelligence structure to enhance the efficiency of commercial teams and improve lead quality for the Small Business team.
- Developed reports, dashboards, and performance analyses, leveraging customer, behavior, and commercial data to identify patterns and opportunities for sales channels.
- Supported 56% YoY growth in the portfolio, which represented approximately 60% of PayPal Brazil's revenue, by enabling a data-driven approach to sales.
- Turned portfolio data into actionable insights for executive decision-making and go-to-market prioritization, leading a team of 2 people.
- Structured segmented sales initiatives and campaigns, prioritizing high-potential leads and continuously monitoring team and campaign performance to improve commercial assertiveness.

Product Owner

Locaweb, São Paulo, Brazil

04/2017 to 12/2017

Core Responsibilities:

- Led the product lifecycle for Shared Web Hosting, managing backlog, user stories, and delivery with agile teams to improve reliability and customer satisfaction.

Key Technologies and Tools: Agile

Product Owner

Terra Networks, São Paulo, Brazil

01/2014 to 04/2017

Core Responsibilities:

- Owned the strategy and roadmap for a portfolio of digital products, including hosting, e-commerce, website builder, security, and Office 365.
- Drove product launches and go-to-market strategies for a diverse portfolio of digital solutions.
- Established new partnerships to expand the reach and offerings of the digital product portfolio.

Key Technologies and Tools: Office 365
